CONTENU

The objective is to develop skills working on public projects in a professional situation. There is a double aiming: (i) expose students to the management of commons, and the implementation of a local public project (e.g. in relation with urban issues); (ii) introduce students to the topic of the implementation of international projects (e.g. in relation with development or environmental issues).

Course outline:

Part I: Commons economics

- Introduction
- Examples and discussion
- Case studies
- Implementation of a project (on a voluntary basis).

Part II: Applied development economics

- Introduction
- Case studies

COMPÉTENCES À ACQUÉRIR

At the end of the course, the student will be able to:

- Implement a public project,
- Work in a team,
- Field work (development economics).

MODALITÉS D'ORGANISATION

- The course is organized in 8 teaching slots, 20h devoted to cost-benefit analysis, and 4h devoted to scenarios. During these slots, main concepts are presented, and students have to solve practical problems that will constitute the first part of the final grade.
- The second part of the final grade is given by a report on a Cost-Benefit Analysis Article.

PRÉ-REQUIS OBLIGATOIRES

Public economics, environmental economics, development economics.

PRÉREQUIS RECOMMANDÉS

Project management.

VOLUME HORAIRE
